

NATIONAL INFODAYS

CoNISMa, Italy

Within the framework of the EMBS event, the Conisma Team set up a stand where a Mission4Nature representative gave information to those interested, on what Mission4Nature is and gave voice to this year's awareness-raising campaign whose theme fits in perfectly with this year's Euro Marine Biology Symposium one.

For dissemination, the Team was provided with a screen on which videos related to the restoration was ran and distributed printed dissemination materials (bookmarks, flyers,...)

In addition, another representative of Mission4Nature was invited to speak during the panel (discussion session) on Improving cooperation between projects on stakeholder needs (restoration law, protection of marine biodiversity...)

Info

Date: 16-20/10/2024

Location: Euro Marine Biology Symposium, Naples
