Externals

Goals & Objectives

Introduce the Community of practice to the project's Associated Partners and give them the floor in order to present themselves and their expectations from their participation to the Community.

Key Message

The Community of practice starts growing!
It welcomes its core members on a 'Project level' (Project Partners and Associated Partners) and builds on the members expectations and needs.

Main outcomes

The Project Partners (PPs) had the opportunity to meet the project's Associated Partners (APs) belonging to the Community (36 organizations). The project objectives and activities were presented by the Community4Nature PPs, while the APs took the floor and presented their profiles, their role(s) within the project (observer, advisor, end-user) and their expectations from their participation to the Community. Finally, the results of a survey sent to the APs before the meeting was presented, overviewing the profile and competences of the involved organizations.

Remarks

From the 36 project's APs, 33 APs have sent a ppt presentation and 31 were present in the online meeting.

Next steps

Launching of the Natural Heritage Mission in collaboration with Dialogue4Nature project.
The Mission's partners will co-organize an event to announce the launching of the Mission and gather the community on a 'Mission level' (Mission's Project Partners and Associated Partners).
